

THE RAF CROSS TRAINER TYPHOON

Inspired by one of the world's most advanced combat aircraft, the shoe is well styled and draws its smooth lines and all-round performance from the inspired Eurofighter design.

This is an official product, which means the care and attention the producers, Bodio Limited, have put into the trainer's development means that even the RAF Regiment will have a tough time putting these durable shoes through their paces.

Typhoon (the RAF Cross Trainer) features the official RAF crest badge and roundel (commonly known to the general public as 'the target') moulded within the styling, and the support of the Royal Air Force and its museum in its general marketing.

The shoe is made from easy to clean synthetic leather, weather proof, scratch proof, lightweight, and durable with anti-slip traction sole and easy fastening lacing system.

This is a limited edition offer on a special pre-sell notice.
